TRADITION SINCE 1902

MADETA a. s. is a Czech company formed by four separate factories, all placed in the beautiful landscape of the South Bohemian region.

The fundamental principle of MADETA is to produce dairy products following to the original recipes it has been using for more than 100 years. We are one of the few producers on the market who pride ourselves in not using any artificial preservatives or emulsifiers and in using only natural colours and flavourings.

The quality and taste of our products is based on using premium-quality milk coming from Czech cows. We process more than 0.4 billion litres of milk every year. After processing, the milk comes back to our customers in more than 240 different products in various flavours, packages and sizes.

MADETA's dairy products also attract customers from abroad – we proudly export to more than 15 countries in Europe, North and South America, the Middle East, Asia and Africa. All our factories are IFS certified and hold the CZ mark allowing us to trade our products across the EU.
