TRADITION SINCE 1902

MADETA a. s. is a Czech company formed by four separate factories, all placed in the beautiful landscape of the South Bohemian region.

The fundamental principle of MADETA is to produce dairy products as true to the original recipes that is has been using for more than 100 years. We pride ourselves in not using any artificial preservatives or emulsifiers and in using only natural colours and flavourings.

The quality and taste of our products is based on using premium-quality milk coming from Czech cows. We are the largest milk processor in the Czech Republic. After processing, the milk comes back to our customers in more than 200 different products in various flavours, packages and sizes. In our varied portfolio you will find milks, creams, yogurts, curds and desserts, as well as fresh, processed, natural and mould cheeses.
